# 🌍 Children's Health Rights Comic: "Planet Protectors – The Right to Be Well"

Meet the Planet Protectors!
We're kids from everywhere—and we're here to defend every child's right to be healthy and safe.

When our planet gets sick, we get sick too. Pollution, dirty industries, and climate chaos are stealing our future —and that's not fair!

KNOW YOUR RIGHTS!
Right to healthcare for everyone
Right to clean water
Right to healthy, safe food
Right to safety and protection
Right to a healthy environment
These aren't just wishes—they're YOUR rights! Grown-ups everywhere promised to protect them, and we can hold them accountable.

# TRADITIONAL WISDOM KEEPERS

Our elders and traditional healers carry ancient wisdom—like how to heal with plants and live in harmony with nature. Their knowledge keeps our communities strong!

WHAT'S HURTING OUR HEALTH?
Pollution, toxic chemicals, and climate disasters threaten our health every day. When corporations put profits before people, kids suffer most.

OUR HEALTH HEROES
We’re not alone in this fight! Community health workers, traditional healers, and young advocates work together to keep us healthy. They’re our health team.

# WHAT CAN WE DO?

We have power! We can learn about our bodies and planet, organize our communities, and teach adults about what we need. Small actions create big change.

> *"Want to be a Planet Protector? Start by learning about health in your community, talking to elders about traditional healing, and joining (or starting!) a youth health group. Your voice matters!"*
